

SAFe® Capabilities Guide

Scale your organization's Agile practice with
the proven Scaling Agile Framework (SAFe®)

Begin Your SAFe® Transformation

cprime.com or call 877.800.5221

You deserve to work with *the best*.

You're looking at this guide because you're feeling the pain of knowing your business isn't running as well as it could and should. In today's market, business agility is no longer a "nice-to-have," it's imperative.

But, scaling your Agile practice is easier said than done and can be a long, complex, and overwhelming process. Expert guidance, the right tools, and a suite of optimized services can make all the difference.

Work with the market
leaders in scaled
Agile solutions for
the enterprise.

Cprime is a global consulting, training, and technology provider with experience working with 50 of the Fortune 100 and 250 of the Fortune 500. Over 500 experts and support staff are dedicated to delivering the maximum value for every client every day. We are a Scaled Agile Gold SPCT Partner and a Scaled Agile Platform Partner, in addition to our partnerships as Atlassian Platinum, AWS Advanced, and more. We also have SAFe® Fellows on staff for top-tier expert support.

Following is a summary of what we can do to ease your pain and guide you along your journey to scaled Agility with SAFe®.

Services

SAFe® Transformations

Scaling Agility beyond the team level requires a different set of skills, new roles, and updated processes. Working with a proven framework has helped thousands of companies organize and implement the changes they need, without unnecessarily disrupting business or wasting time and energy heading in the wrong direction. Cprime experts can help with training, tooling, and coaching to get you up and running with SAFe®.

We don't just help with people, processes, or technology. We tailor SAFe® to drive measurable business results, whatever that may mean to your organization. We meet you where you are to ensure the optimal combination of enablement, guidance, and tools to move you toward Enterprise Agility. Cprime has a proven track record of helping enterprises stay competitive, grow, and adapt their business strategy to emerging opportunities.
