LEARNING

Technology Learning – Our Technology Curriculum
Enables Execution

Automation, computing, data and cloud architectures are just a few of the technology domains Cprime can teach our customers to use effectively. In the enterprise technology ecosystem, new value can be unlocked from these capabilities, but only if teams quickly learn to use them, and leaders can quickly learn how they fit with overall strategic priorities.

Cloud and IT Services

*Hands-on technology training on every major cloud platform and skill set.*

- **Azure DevOps For Teams** | 1 day | Starting at: $450

  In this dynamic and interactive course, attendees learn the basics of Azure DevOps as well as understand the configurations available on an Agile board.

- **Microsoft Azure Fundamentals** | 2 days | Starting at: $1545

  Gain foundational level knowledge on cloud concepts; core Azure services; security, privacy, compliance, and trust; and Azure pricing and support.

aws partner network

ISV Workload Migration
Well Architected

Amazon Web Services (AWS)

- **AWS Technical Essentials** | 1 day | Starting at: $675

  AWS Technical Essentials introduces you to AWS products, services, and common solutions.

- **Architecting on AWS** | 3 days | Starting at: $2025

  Learn how to optimize the use of the AWS Cloud by understanding AWS services and how these services fit into cloud-based solutions.

- **AWS Security Essentials** | 1 day | Starting at: $640

  This course covers fundamental AWS cloud security concepts, including AWS access control, data encryption methods, and how network access to your AWS infrastructure can be secured.

Available formats for these courses - In-Person, Live Online, Private Group Training

Amazon Web Services (AWS) Continued...

- **AWS Cloud Practitioner Essentials** | 1 day | Starting at: $695

  This course provides a detailed overview of cloud concepts, AWS services, security, architecture, pricing, and support.

- **Developing on AWS** | 3 days | Starting at: $2025

  In this course, you learn how to use the AWS SDK to develop secure and scalable cloud applications.

- **Big Data on AWS** | 3 days | Starting at: $2025

  In this course, we show you how to use Amazon EMR to process data using the broad ecosystem of Hadoop tools like Hive and Hue.

- **DevOps Engineering on AWS** | 3 days | Starting at: $2025

  The course covers the core principles of the DevOps methodology and examines a number of use cases applicable to startup, small and medium-sized business, and enterprise development scenarios.

- **Deep Learning on AWS** | 1 day | Starting at: $675

  The training will detail how deep learning is useful and explain its different concepts. This course also teaches you how to run your models on the cloud using Amazon SageMaker, Amazon Elastic Compute Cloud (Amazon EC2)-based Deep Learning Amazon Machine Image (AMI) and MXNet framework.

DevOps Learning – Our DevOps Curriculum
Welcome to the Digital Revolution

The principles of agility meet the newest and most disruptive tools and IT platforms in our hands-on, lab-driven DevOps courses. Cprime Learning is the first learning vendor in the world to offer multi-day, comprehensive training on every aspect of DevOps.
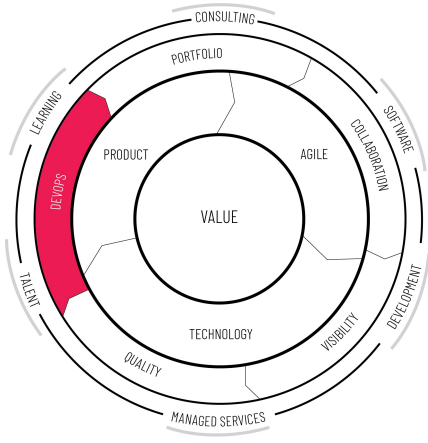

GitLab

GitLab Official Training Partner

Continuous Integration & Continuous Delivery (CI/CD)
Shorten cycle times, reduce risk, and improve quality of life for technology teams.

- **Implementing CI/CD Pipelines** *(we match toolchains to customer environments)* | 3 days | Starting at: $2450

  This technical tools course uses Github, Ansible, and Jenkins to give DevOps team members the ability to automate an entire end-to-end CI/CD pipeline.

- **Jenkins User Boot Camp** | 2 days | Starting at: $1650

  Learn how to use Jenkins to deliver more value, more frequently, and with lower risk than traditional engineering in this Jenkins training.

- **Implementing Azure DevOps Pipelines** | 3 days | Starting at: $2550

  In this hands-on boot camp, you will build a truly practical and useful End-to-End DevOps Pipeline to create, test and deploy Chef Cookbooks through CI/CD (Continuous Integration / Continuous Deployment) using Azure Repos and Azure Pipelines.

Available formats for these courses - In-Person, Live Online, Private Group Training

GitLab Official Training Partner

Continuous Integration & Continuous Delivery (CI/CD) Continued...
Shorten cycle times, reduce risk, and improve quality of life for technology teams.

- **CircleCI Boot Camp for Continuous Workflows** | 2 days | Starting at: $1950

  Rapidly release code with confidence by automating the build, test, and deployments using Circle CI.

- **Git & GitHub Boot Camp** | 2 days | Starting at: $1750

  Learn basic and advanced Git commands and learn how to better collaborate across the enterprise using the platform GitHub.

- **BitBucket for Version Control** | 2 days | Starting at: $1750

  This course is intended for teams wanting to collaborate with Bitbucket, whether you're looking to store source code, deploy software, or anything in between. You'll discover the most useful parts of Bitbucket and learn how to create and manage Git repositories.

- **GitLab Boot Camp** | 2 days | Starting at: $1595

  This fast-paced class delivers immediate skills to update your teams so they can take advantage of everything GitLab offers. Led by an expert, you'll practice working through outcome-based scenarios and learn all the features of GitLab along the way.

Available formats for these courses - In-Person, Live Online, Private Group Training

DevOps Learning – Our DevOps Curriculum
Welcome to the Digital Revolution

The principles of agility meet the newest and most disruptive tools and IT platforms in our hands-on, lab-driven DevOps courses. Cprime Learning is the first learning vendor in the world to offer multi-day, comprehensive training on every aspect of DevOps.
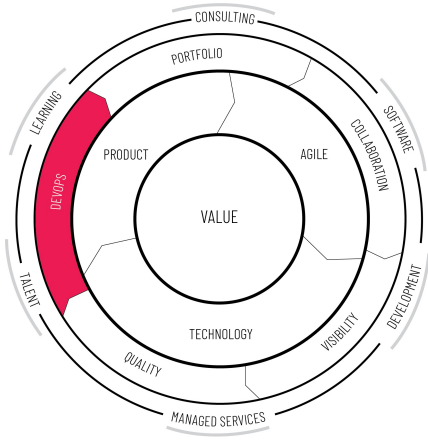

Configuration Management & Automation

These lab-augmented classes teach teams to use the most popular tools for provisioning and managing infrastructure, whether in the cloud or the datacenter.

- **Introduction to Using Puppet** | 2 days | Starting at: $1750

  This Puppet training course demonstrates the complete Puppet configuration management system, and how it can be used to build and scale reliable infrastructure for your own environments.

- **Ansible Configuration Management Boot Camp** | 2 days | Starting at: $1650

  This Ansible training course demonstrates the flexibility and power of the Ansible configuration management system, and how it can be used to build and scale highly reliable infrastructure for your own environments and projects.

- **Chef Foundations (Official Chef training)** | 3 days | Starting at: $1750

  Learn what it means to turn infrastructure into code so that you can automate the configuration, deployment, and management of your servers.

- **Managing Cloud Infrastructure with Terraform** *(choose AWS or Azure)* | 2 days | Starting at: $1950

  Working together, our experts will provide a blend of technical consulting with hands-on instruction as they assist your organization in effectively using Terraform for infrastructure needs.

Available formats for these courses - In-Person, Live Online, Private Group Training

DevOps Learning – Our DevOps Curriculum
## Welcome to the Digital Revolution

The principles of agility meet the newest and most disruptive tools and IT platforms in our hands-on, lab-driven DevOps courses. Cprime Learning is the first learning vendor in the world to offer multi-day, comprehensive training on every aspect of DevOps.

Containers & Architecture
Learn to revolutionize application workflows and IT service architectures.

- **Docker Containerization Boot Camp** | 3 days | Starting at: $2450

  Learn the skills to radically simplify application deployment, IT workflow, version control, production support and much more with the power of Docker containerization.

- **Introduction to Kubernetes** | 2 days | Starting at: $1650

  This Kubernetes training workshop is a fast-paced engineering overview that sends you back to work ready to begin using Kubernetes in your own environment.

- **Advanced Kubernetes Boot Camp** | 3 days | Starting at: $2450

  In this advanced Kubernetes training course, an experienced technologist will guide you through critical topics around Kubernetes that will help you build enterprise applications.

- **Microservices Engineering Boot Camp** | 3 days | Starting at: $2450

  The workshop includes 16 hands-on exercises that give you real-world practice on the engineering tools and skills a team needs in order to realistically implement your own flavor of Microservices architecture patterns so you can address the team needs of your own organization.

DevOps Learning – Our DevOps Curriculum
Welcome to the Digital Revolution

The principles of agility meet the newest and most disruptive tools and IT platforms in our hands-on, lab-driven DevOps courses. Cprime Learning is the first learning vendor in the world to offer multi-day, comprehensive training on every aspect of DevOps.

Observability
Find patterns in machine data, analyze operational exhaust, and predict and prevent outages.
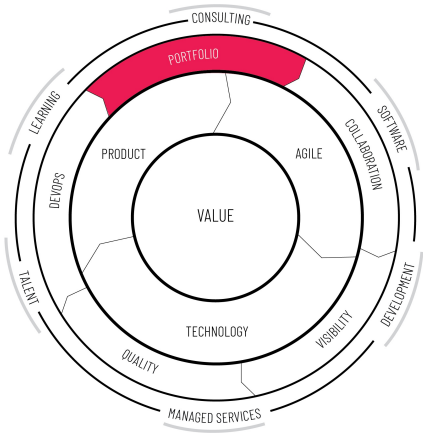

- **Splunk Boot Camp** | 2 days | Starting at: $1595

  This two-day boot camp is designed to empower a wide range of technology workers with the knowledge and skills needed to take full advantage of Splunk.

- **Elastic Stack Boot Camp** | 3 days | Starting at: $2550

  This Elasticsearch training course is intended for engineers and architects who want to make sense of their machine data and learn how to ingest, search, analyze, and visualize it all using the Elastic Stack.

Portfolio Learning –
# Our Portfolio Curriculum

These classes teach essential techniques for advancing agility above the team level.

Portfolios and Programs

- ### Using Jira Align to Implement SAFe® | 1 day | Starting at: $795

  Learn how to use Jira Align to measure and manage key aspects of a complex agile initiative at scale – tracking budget, mapping to the key SAFe® constructs, and integrating Jira into your organization.

- ### Azure DevOps for Agile at Scale | 2 days | Starting at: $1595

  Led by our senior development leaders who also have deep experience coaching and guiding enterprise-wide agile transformations, you will leave this class ready to integrate your Microsoft tooling with any framework for scaling an agile practice.

- ### BigPicture Training - Hands-On Workshop | 2 days | Starting at: $1950

  This BigPicture training class helps companies fully understand the extensive capabilities of the app, get insights into best practices, and increase the overall proficiency of using the tool.

Available formats for these courses - In-Person, Live Online, Private Group Training

Collaboration Learning – Our Collaboration Curriculum

Teaching your teams the right collaboration tools to stay aligned is critical to agility. We specialize in Atlassian, Microsoft, and enablement for distributed teams.
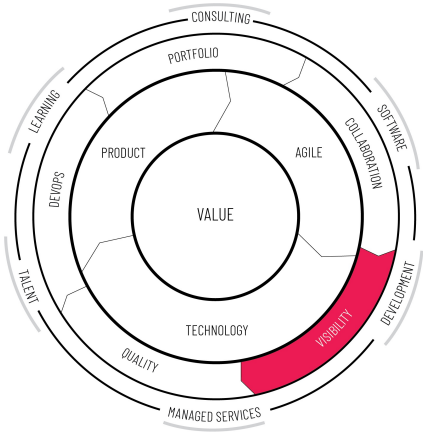

Atlassian

- **Jira and Agile Projects** | 2 days | Starting at: $1750

  This fast-paced, hands-on workshop teaches you how to manage agile projects, products, and development work using Atlassian Jira as your primary collaboration platform.

- **Using Jira Align to Implement SAFe®** | 1 day | Starting at: $795

  Learn how to use Jira Align to measure and manage key aspects of a complex agile initiative at scale – tracking budget, mapping to the key SAFe® constructs, and integrating Jira into your organization.

- **Jira for Teams** *(also available as e-learning)* | 1 day | Starting at: $695

  The Jira for Teams course covers important Jira skills through lecture, demonstration, and hands-on exercises to help attendees get the most out of Jira.

- **Jira for Administrators** | 1 day | Starting at: $795

  Whether you are in a full-time role dedicated to Jira Administration, or a role that includes some admin responsibilities. this course is a fast-paced, expert-led workshop that allows you to learn and practice critical administration skills.

- **Confluence for Teams** *(also available as e-learning)* | 1 day | Starting at: $150

  Attendees will learn how to create and edit documents, known as pages, as well as format these documents and finally learn how to organize pages in Confluence's environment.

- **Confluence for Administrators** | 1 day | Starting at: $150

  Learn to manage users, groups, and permissions, and how to enable your teams with templates and tools.

Visibility Learning – Our Data Curriculum
## Data, Analytics, & Data Engineering

Comprehensive data training teaches a team to make better decisions, find critical insights, and use tools to maximize the value of information. Our data curriculum has a wide array of courses to fit the visibility needs of your organization and the skill growth of your people.

Big Data

- **Working with Apache Kafka** | 2 days | Starting at: $1895

  This hands-on Apache Kakfa training workshop gets you up and running so you can immediately take advantage of the low latency, massive parallelism, and exciting use cases Kafka makes possible.

Data Engineering & Enterprise Databases

- **Introduction to MongoDB for Developers** | 2 days | Starting at: $2295

  This is a hands-on course that provides students with comprehensive coverage of and hands-on experience with the MongoDB query language and aggregation framework, data modeling, indexes, drivers, basic performance tuning, high availability and scaling.

Visibility Learning – Our Data Curriculum
Data, Analytics, & Data Engineering

Comprehensive data training teaches a team to make better decisions, find critical insights, and use tools to maximize the value of information. Our data curriculum has a wide array of courses to fit the visibility needs of your organization and the skill growth of your people. The Cprime Learning catalog includes courses on topics ranging from the most basic introduction to analyzing and working with data, to advanced engineering topics on emergent technology for deploying artificial intelligence and advanced analytics.

Data Visualization Tools

- **Microsoft Power BI Boot Camp** | 3 days | Starting at: $1595

  This three-day instructor-led course will teach how to use the entire Power BI and Power BI Desktop toolset as your business intelligence platform.

- **Mastering DAX for Microsoft PowerBI** | 3 days | Starting at: $1795

  Leave class ready to extend your role well beyond that of most PowerBI users – applying skills to manipulate, analyze, and communicate about data precisely and powerfully.

- **PowerBI Dashboards** | 1 day | Starting at: $695

  Starting with a few fundamentals, you will leave class equipped with a core set of skills for using PowerBI to visualize and communicate your data and the stories it tells.

- **Introduction to Tableau | Tableau Quickstart** | 1 day | Starting at: $895

  Learn the required skills to leverage the important concepts and techniques in Tableau to move from simple to complex visualizations.

- **Alteryx Boot Camp** | 3 days | Starting at: $2750

  This comprehensive Alteryx training course will cover all the basic building blocks needed to create data preparation and automation workflows.

Cprime also offers training on these observability tools, in addition to our managed services team's observability platform.
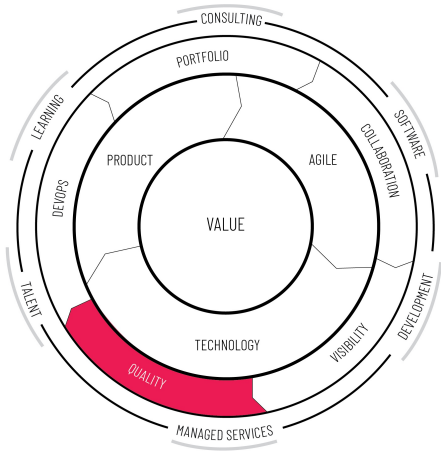

- **Elastic Stack Boot Camp** | 3 days | Starting at: $2550

  This Elasticsearch training course is intended for engineers and architects who want to make sense of their machine data and learn how to ingest, search, analyze, and visualize it all using the Elastic Stack.

- **Splunk Boot Camp** | 2 days | Starting at: $1595

  Start making better decisions with meaningful data in this exercise-intensive Splunk training course.

cprime.com/learning | learn@cprime.com

Quality Learning –
Our Quality Curriculum

Cprime teaches software and technology teams to build quality in at the creation of services and products – increase test coverage, leverage automation, and make testing more agile.

Testing & Quality Assurance
Build quality in at the source

- **Automating Tests with Cucumber** | 1 day | Starting at: $1495

  Through examples and exercises, this course shows the developer how to write the code necessary to connect tests with Cucumber to Java production code.

- **Selenium for Test Automation** | 2 days | Starting at: $1850

  Learn key facets and true test automation capabilities of Selenium from the developers of Selenium GRID.

Available formats for these courses - In-Person, Live Online, Private Group Training
