Agile Solutions

Your Partners in Pursuit of Enterprise Agility

cprime

Change occurs at a breakneck pace. The days of five-year initiatives and detailed project plans are gone, and businesses that fail to embrace this reality *WILL* be left behind.

Your organization must pursue enterprise agility.

You'll Need Help. Work With the Best.

Cprime is a global leader in Agile and technology consulting, training, and support; the only global strategic consulting firm that blends Agile, product, and technology solutions to achieve **enterprise agility**, regardless of industry. Cprime is the go-to partner for organizations looking to get ahead of change and turn ideas into action faster.

Agile Solutions

"Going Agile" is easier said than done. And, achieving scaled enterprise agility can be a long, complex, and overwhelming process. Expert guidance, the right tools, and a suite of optimized services can make all the difference. Here's how we can ease your pain and guide you to enterprise agility.

Agile Transformations

The tools, knowledge, and experience to guide you to enterprise agility

Scaled Agility

The skills, roles, and processes that will support enterprise agility

Agile Training

Flexible role-, tool-, and skill-based learning opportunities

Agile Tooling

The right tool stack, optimized to support enterprise agility

Agile Coaching and Consulting

Agile experts for short- or long-term product and technical support
Product Agility

Move from project to product by organizing around customer value

Agile Talent Acquisition

Qualified Agile professionals to fill your tech talent gap
Agile for Hardware

Applying Lean-Agile principles and DevOps to hardware

Agile Transformations

We don't just help with people, processes, or technology. We put it all together to provide real business value.

Learn More: cprime.com/agile/agile-transformation

Are you just considering an Agile transformation and don't know where to start? Or are you well on your way and losing steam? We meet you wherever you are on the journey toward enterprise agility. With the optimal combination of enablement, guidance, and tools, you'll be able to mature and scale at the perfect pace to meet and exceed your business goals and ensure sustainable success.
From technology to finance, healthcare to manufacturing, Cprime has a proven track record of helping enterprises stay competitive, grow, and adapt their business strategy to emerging opportunities.

Scaled Agility

Scaling Agility beyond the team level requires a different set of skills, new roles, and updated processes.

Learn More: cprime.com/agile/safe

Working with a proven framework has helped thousands of companies make the changes they need, without unnecessarily disrupting business or wasting time and energy. Expert training, tooling, and coaching will get you up and running with the scaling Agile framework of your choice.

Agile Training

We take an "all in" approach with our Agile training and coaching philosophy, focusing across the enterprise, not just IT.

Learn More: cprime.com/learning/topic/agile

Our Agile training courses are highly interactive and offer a "hands-on" learning approach. Courses include general upskilling, certification, and CECs. Different learning modes include self-paced e-learning modules, onsite or online instructor-led courses, bootcamps, and workshops.

Agile Tooling

Access expert guidance and support in developing your optimal tool stack to achieve business outcomes.

Learn More: cprime.com/business-technology

Cprime can help your organization choose, implement, and make the most of your tool stack, leveraging our partnerships with Atlassian, Apptio, Asana, Slack, and more. From technical coaching to training, to migrations, to integrations, and everything in between, we're here to support your tooling needs.

Agile Coaching and Consulting

We have hundreds of Agile experts available to guide your transformation and help you get the most out of the tools and frameworks you're using.
Learn More: cprime.com/agile

Our tested, refined and proven Agile delivery approach has helped countless enterprises transform their way of working to reap the benefits of Agile methodologies, addressing all stages involved in meeting and exceeding business goals: Prepare, Roadmap, Iterate, Measure, and Evolve.

Product Agility

Working in an Agile way is one thing. But how do you know if you're building the right thing that will satisfy your customers and impact the market?

**Learn More:** cprime.com/product-agility

With Cprime's Agile Product Development solutions, your product teams will get from planning to launch faster, while shifting the focus away from individual projects and onto the value your products bring. Achieve true product agility so you can always pivot to the customer's needs.

Agile Talent Acquisition

As the global talent market shifts to adopt new technology, elevating your talent is critical for your business. Cprime can help.
Learn More: cprime.com/talent-acquisition

Cprime provides end-to-end solutions for growing your talent, including reskilling existing employees and augmenting your teams through outside talent acquisition, finding the right hires for new job functions through staffing.

Agile for Hardware

Agile principles aren't just for software. Cprime pioneered the application of Agile to hardware production.

Learn More: cprime.com/agile/agile-for-hardware

For many large enterprises, the alignment of hardware and software processes is critical to ensure a reliable and integrated product-development environment. Cprime offers training, coaching, and guided foundational solutions around hardware product development.

Agile Transformation at a Utility Company

Long cycle times and waterfall methodology hindered this utility company's efforts to respond to change in the market and produce consistent value for customers with evolving needs. We helped pilot a new Agile way of working with excellent results.

30% Greater Productivity

The agile teams drastically improved cycle times over teams who were still running traditionally, resulting in a 30% improvement in productivity.

96% Fewer Projects

The customer dramatically streamlined non-delivery processes and consolidated 70 projects to just three, eliminating the overhead for the excess projects.

As an added benefit, many of the team members noted improved morale, greater employee engagement, and other less tangible improvements.

One stated, "this is the best team I've ever been on!"
