

Unlock Enterprise Value with a Single, Unified Platform

TRANSFORM YOUR SERVICE MANAGEMENT IN 10 WEEKS

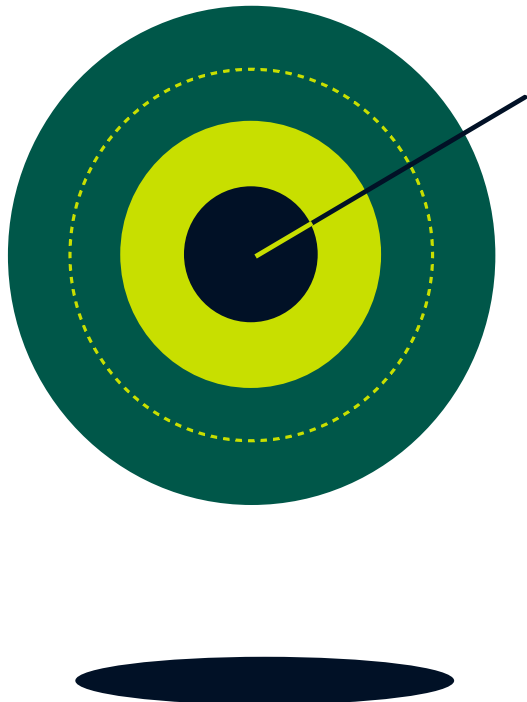

THE CHALLENGE

Disconnected systems, manual processes, and siloed tools slow growing companies. Employees bounce between channels for help, requests drag, and data remains scattered, making adoption weak and ROI nearly impossible to track.

THE SOLUTION

The ServiceNow Core Business Suite replaces that chaos with one AI-powered platform. It streamlines work, reduces tech debt, strengthens security, and equips leaders with real-time intelligence for faster, smarter decisions. With proven expertise and an AI-native approach, CBS becomes the foundation of an intelligent operating model that scales with your business.

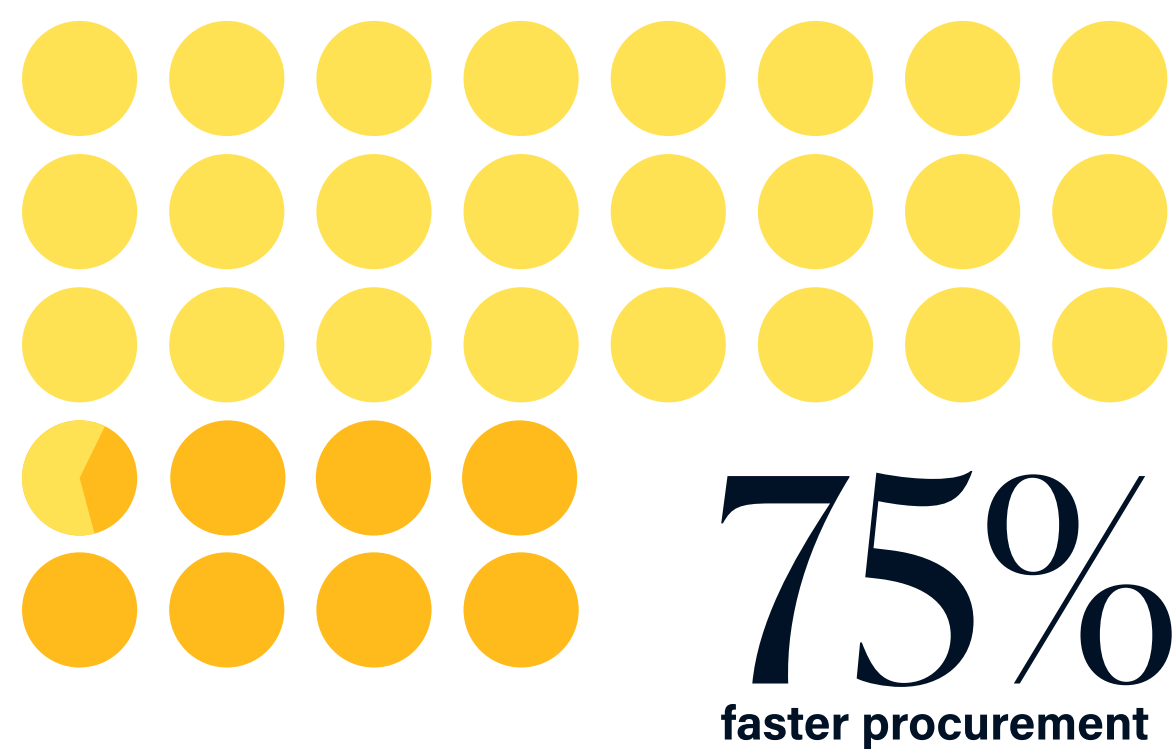

Why CBS Matters

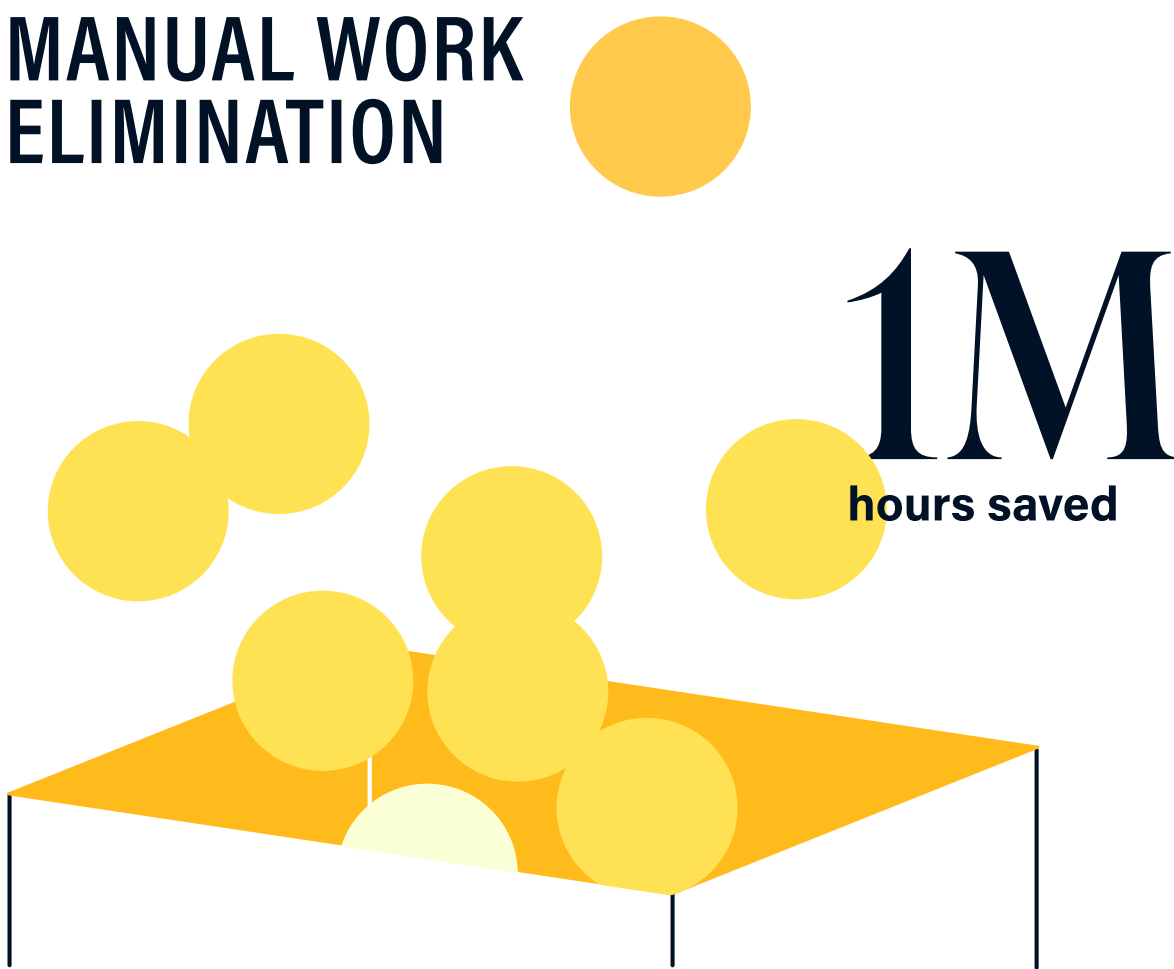

CPRIME + SERVICENOW

WHAT CBS MEANS FOR YOUR ORGANIZATION

PROCESS ACCELERATION

MANUAL WORK ELIMINATION

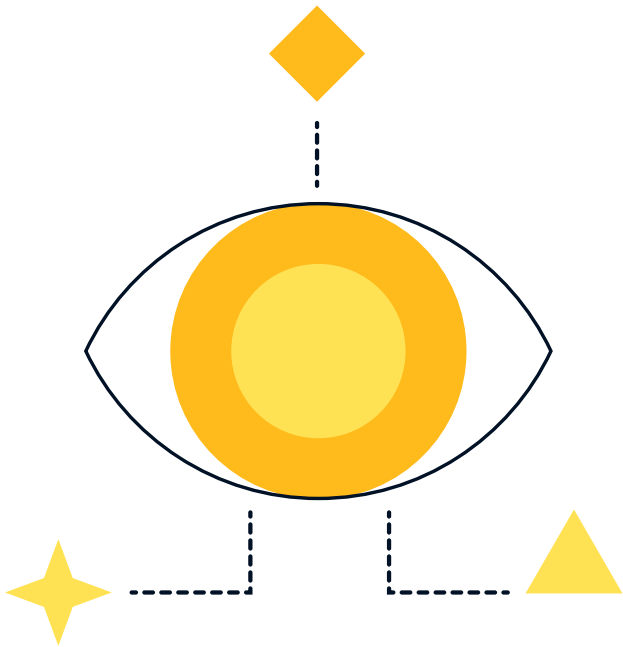

SUPPLIER
INTEGRATION SPEED

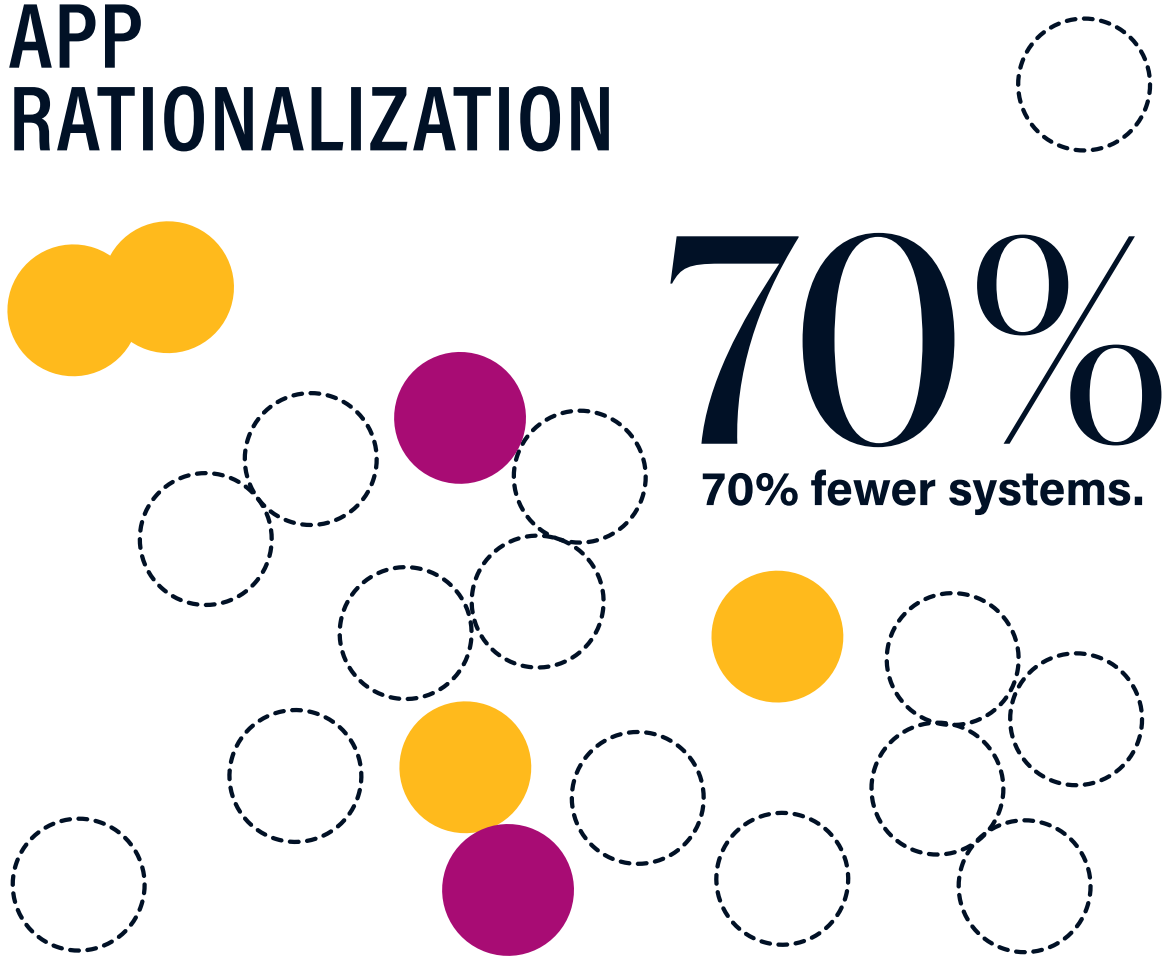

UNIFIED
VISIBILITY

One platform to track, measure, and optimize.

APP
RATIONALIZATION

All underpinned by Cprime’s ability to integrate ServiceNow seamlessly with your broader enterprise tool stack for maximum operational efficiency and ROI.

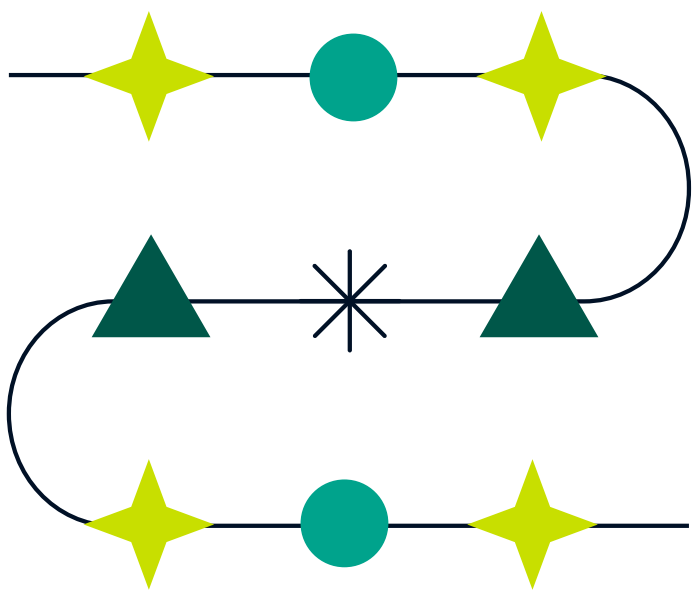

Strategic Shift

FROM REACTIVE CHAOS TO PROACTIVE INTELLIGENCE

BEFORE CBS:

- Multiple SaaS subscriptions and security risks.
- Slow, manual processes.
- Lack of systemic adoption due to confusion.

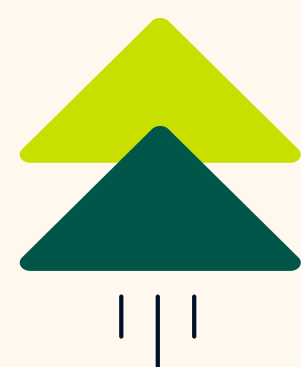

AFTER CBS:

- Unified platform powered by intelligent automation.
- Automated, measurable workflows.
- Improved adoption through simplification.

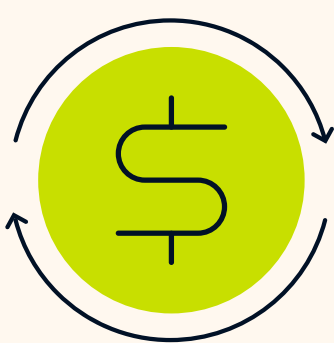

A modernized operating model that intelligently orchestrates people, processes, and technology, giving executives the insight and agility to stay ahead.

For the C-Suite

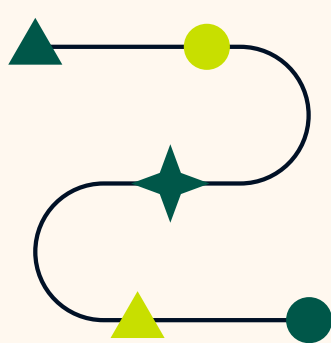

THE DECISION POINTS THAT MATTER MOST

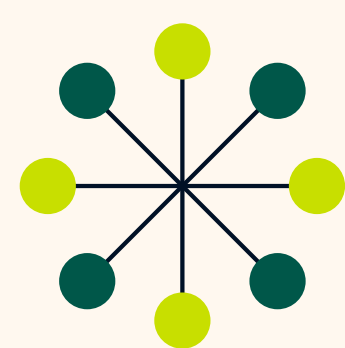

Speed to Transformation
Deploy in 10 weeks with built-in AI intelligence.

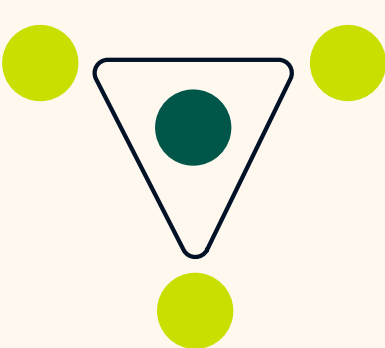

Measurable ROI
Track request-to-resolution times and process improvements.

Scalable Platform
Connect employees, suppliers, and systems in one place.

Competitive Advantage
Move from reactive operations to proactive intelligence.

Proven Expertise
A decade of ServiceNow delivery experience, deep consulting capability, and cross-platform integration skills.
